# DISPLAY PRODUCT SOLUTIONS

PREFERRED RESELLER PRICELIST

# Product Support & Catalogues

Should you require further information on a product in this catalogue, or if you are unable to find what you're looking for, please do not hesitate to call Customer Service on 09 271 2020

This Preferred Reseller catalogue is available in an 'End-User' edition which has no pricing.

We have also produced a full colour A4 flyer with line drawings, descriptions and order codes for the biggest sellers in our product range. The Catalogue and Flyer are both ideal selling tools for your sales team.

Catalogues and flyers are available as hard copies, or as electronic copies.

If you require catalogues please contact us at sales@boydvisuals.co.nz or call us on 09 271 2020.

## Paper Sizes and Orientation

With so many different sizes and shapes of printed material now available, and so many holders to display them, we hope that the following diagrams and dimensions will assist you in working out the size and type of holder you require.

### Portrait Style

A0	1188 mm (H) x 840 mm (W)
A1	840 mm (H) x 594 mm (W)
A2	594 mm (H) x 420 mm (W)
A3	420 mm (H) x 297 mm (W)
A4	297 mm (H) x 210 mm (W)
A5	210 mm (H) x 148 mm (W)
A6	148 mm (H) x 105 mm (W)
A7	105 mm (H) x 74 mm (W)
DLE*	210 mm (H) x 100 mm (W)

### Landscape Style

A0	840 mm (H) x 1188 mm (W)
A1	594 mm (H) x 840 mm (W)
A2	420 mm (H) x 594 mm (W)
A3	297 mm (H) x 420 mm (W)
A4	210 mm (H) x 297 mm (W)
A5	148 mm (H) x 210 mm (W)
A6	105 mm (H) x 148 mm (W)
A7	74 mm (H) x 105 mm (W)
DLE*	100 mm (H) x 210 mm (W)

\* DLE also known as 'Tri-fold A4' or 'Leaflet size'

Measurements in this catalogue are for the total outside dimensions of the unit (not the inside dimensions) unless stated otherwise.

## Trading Terms and Credit Returns

1. It is a condition of supply that payment for goods must be made either on or before the 20th of the month following dispatch
2. Until full payment is made, title in the goods remains with Boyd Visuals.
3. No credit claims will be entertained unless made within 5 days of delivery
4. A return authorisation number must be obtained by the buyer prior to the goods being returned
5. Faulty or incorrectly supplied goods must be returned by Boyd Visuals nominated carrier at our expense for a full credit to be issued.
6. Goods incorrectly ordered by the Buyer can only be returned freight paid by the Buyer and in the original packaging and condition. Boyd Visuals reserves the right to recover outgoing freight costs and charge a 15% restocking fee
7. Special customer orders and buy-ins cannot be returned
8. Stand Tall multi-pocket literature racks cannot be returned
9. Orders of \$100 (excluding GST) or more will be delivered freight free. For orders under \$100 (excluding GST), the following freight and handling fees apply: Auckland \$7.00, North Island \$12.00, South Island \$20.00
10. Due to the policy of continual product development at Boyd Visuals, product range and specifications may change without notice and without incurring obligations.

# Brochure Holders - General Specification

Deflecto brochure holders are recognised internationally for their style, quality and durability. Over the following pages you will find the most comprehensive range of brochure holders available in New Zealand, including:

## 1. Premium Range Brochure Holders

High quality, economical, injection moulded brochure holders manufactured from durable, crystal clear plastic in attractive and contemporary designs. Available in single pocket and multi-pocket and with optional businesscard holder(s). (see pages 6-14)

## 2. Flat Back, Linking Brochure Holders, Wall Mounting

Extremely versatile flat back brochure holders that can be used individually, or can be linked together with any size in the range to make an attractive wall display. Each unit is supplied with pre-drilled holes but can also be mounted using double sided tape, Velcro™, magnets, or slat wall brackets, which means they can be attached to virtually any type of wall with ease. (see pages 6 - 12)

Linking brochure holders can be linked side by side to create a multipurpose wall display.

## 3. Lit Loc Brochure Holders

Lit Loc is the most versatile brochure display system in the Deflecto range. These brochure holders link together side-by-side (similar to our flat back wall mounting series) and also link 'front-to-back' making it possible to create 'water fall' effect with multiple tiers of brochure holders. They can then be either wall mounted, or free standing and are also available in a range of easel floor stands. (see pages 15-19)

## 4. Manhattan Brochure Holders

These brochure holders have an innovative design that combines clear, injection moulded brochure pockets with an elegant, metallic-look, curved surround that frames the brochures. The modern, stylish and eye-catching display also incorporates business card holders at the front. Manhattan brochure holders are available in 3-tier A4 and 3-tier DLE options with frames in either black or silver. (see pages 8 & 10)

## 5. Extra Capacity Brochure Holders

With twice the capacity of regular brochure holders, these extra capacity holders are ideal for use in high traffic areas, such as trade shows, where refilling can be a nuisance. Removable dividers can be used to convert extra capacity brochure holders into standard capacity, 2-tier multi-pocket brochure holders. Available in free-standing and wall mounting options. (see pages 7, 9 & 11)

## 6. Stand Tall Unbreakable, Linking Brochure Holders

Designed for the busiest of offices or display areas, Stand Tall brochure holders are durable, attractive, practical and cost-effective. Made from high impact polycarbonate, Stand Tall brochure holders are guaranteed unbreakable under normal use. Each unit has a high tension spring action tongue that snaps back to keep the literature upright and a stair-step design in the base to prevent it from sliding down. Together these features ensure that leaflets and brochures are displayed perfectly and look good at all times. Stand Tall literature racks are available individually for wall mounting or in a range of attractive and functional display stands, including wall racks, rotating stands and easel units. (see pages 7, 9, 20 & 21)

## 7. Chrome Wire Brochure Holders and Magazine Racks

Manufactured using high quality steel, with a polished chrome finish, these wire brochure holders are a simple yet stylish alternative to plastic holders. Available in single pocket free standing and also as multi-pocket display stands, including wall racks and fixed and rotating floor stands. A4 pockets have the added advantage of being wide enough to accommodate magazines. (see page 21)

## 8. Sustainable Office, Recycled Brochure Holder

These injection moulded, Premium Range brochure holders are a high quality, environmentally friendly alternative for brochure display. Manufactured using 60% recycled plastic in semi-gloss, black finish and available in single pocket and multi-pocket and with optional business card holder(s). (see pages 7-10)

## 9. Budget Brochure Holders

A simple but effective range of plastic brochure holders manufactured to the same high quality standards but available at budget prices. (see pages 7, 9 & 11)

## DLE (LEAFLET) BROCHURE HOLDERS

- High quality, economical literature display
- Manufactured from durable plastic
- Attractive and contemporary designs
- Standard capacity and extra capacity
- Single pocket and multi-pocket, landscape and portrait
- Business card holders can be added to some models (marked \*)

772501B	Clip On Base Large Multi-Tier	100 x 22 x 180	12	1-11 12+

### Installation Guide

#### Side-by-Side Linking

Align the dovetail features on the side of the brochure holders and slide the right hand brochure holder backwards to link together.

Side-by-Side Linking

#### Multi-Tier Linking

Align the brochure holders one in front of the other so that the linking clips on the back of the front brochure holder are directly above the guide lines on the front of the rear brochure holder. Slide the front brochure holder firmly downwards to link together.

Option 1 : Upper Linking

Please note: There are two front-to-back linking positions. The upper linking position (Option 1) is designed for free-standing displays but can also be used for wall mounting displays where space is limited. The lower linking position (Option 2) is designed for wall mounting displays only.

#### Wall Mounting

Attach the Aluminium Wall Mounting Bar to the wall, ensuring that it is horizontal. Link brochure holders together side-by-side as required and clip onto the wall bar. Additional rows of brochure holders can be linked to the front of rows already in place.

Option 2 : Lower Linking

Please note : For displays with 4 or more rows it is recommended that the small Lit Loc Base is attached to the back of the 4th, 5th or 6th row to space the brochure holders out from the wall and to provide additional support.

#### Clip-on Base/Spacer Installation

Align the brochure holder and base so that the lugs on the base fit into the keyhole slots on the brochure holder. Slide the base sideways to lock in place.

2-Tier DLE with Small Base

## ALUMINIUM WALL MOUNTING BAR

- Screw fixing holes drilled on request
- Custom lengths available as required

## WALL MOUNTING DISPLAY WITH SIGN MOUNTS

Simple but elegant wall mounting graphic display panels manufactured using crystal clear acrylic and high quality, satin silver sign mounts. The unique design allows graphics to be changed with the sign mounts in place and without removing the panel from the wall.

- Designed to hold menus, property listings, advertising posters, etc
- Made from a single piece of acrylic folded in a 'U-shape'
- Top opening with clips to hold the acrylic in place when closed
- Mounted on the wall using satin silver sign mounts, which are fixed to the rear part of the acrylic only
- Signs can be changed easily, with no damage to the wall
- Sizes from A0 to A3
- Available in portrait and landscape orientation

Order Code	Description	Dimensions W x H x D (mm)	Pack	Order Qty
75801	Vertical Card Holder. Holds material up to 1mm thick	46 x 12 x 46	100	1-99 100+

## CABLE DISPLAY SIGN HOLDER KITS

The Manhattan Cable Display Sign Holder system allows signs to be displayed in situations where direct-to-wall mounting is not practical, such as in open spaces, or shop windows.

Vertical cables are fixed to the ceiling and floor to the top and bottom of a wall. Sign clamps are then attached to the cables and are used to support acrylic sign holders.

- Sign holders available in sizes from A4 to A0, and in portrait and landscape orientation
- Can be used for single-sided and double-sided display
- Cost-effective, space-saver add-on kits are available in A4 and A3 sizes
- Easy to install and maintain

## TILT BINS

- Ideal for storage of office supplies, craft items, sewing materials, handyman supplies etc., in the office, at school or in the home
- Clear, high impact styrene plastic bins are fitted into a modular, white ABS plastic housing
- Individual bins open by tilting forward at the top. They're designed to stay open, yet close with the touch of a finger and can be completely removed from the housing, if required
- The unique interlocking design allows the bins to be linked together side-by-side, or stacked on top of one another
- Can be free-standing or wall mounted with screws (supplied), or by using the Lit Loc Wall Mounting Bar (see page 15)

## STACKABLE CADDY ORGANISER

- All new, portable storage system featuring a carrying frame and removable clear plastic containers with hinged, snap-shut lids
- Stackable design using the unique "lift and lock" feature allows Caddy Organisers to be linked together to form one easy to carry unit
- Great for on-the-go storage needs
- Carrying frame manufactured from white ABS plastic, storage containers made from durable, high impact styrene plastic with hinged lids
- Container lids can be removed for easy access
- Individual containers available separately
- Containers can be wall mounted using the Lit Loc Wall Mounting Bar (see page 15)
